

Self-Assessment

Are your employees your weakest cyber security link?

Keeping your business safe requires the help of knowledgeable employees. That means they need more than just annual training. Are your employees putting you at risk of a cyber attack? Take our self-assessment to find out if your employees are your weakest links.

Answer each question to the best of your ability. If you are unsure, check the “Not Sure” box or leave the answer blank.

	Yes	No	Not Sure
Do you frequently train your employees on relevant security topics or offer any formal security awareness training (monthly, quarterly, annually)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are you consistently assessing the dark web against your domain to see if employee information using your domain is out on the dark web?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you often run assessments to test the integrity of your network/infrastructure?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you test your employees knowledge of security best practice by conducting simulated phishing campaigns?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you have a means to benchmark employee security awareness over time or identify which employees represent the greatest risk to the organization?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you encourage persistent security hygiene with your employees?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

How did your company score?

We want to help you strengthen your employee security. If you answered “Not Sure” or “No” to any of the questions above it’s time to talk to a Milner Expert. Contact us to find out how we can transform your weakest links into your strongest defenses.
